Hear and be Heard

SWATCOM SC40

Passive Noise-cancelling Headsets

The SWATCOM SC40 Passive Headband Headsets are heavy duty noise cancelling headsets designed for use in the most demanding high noise environments.

The Headset achieves the perfect balance of hearing defence & external noise awareness, a compromise perfectly executed.

- Directly connects to most analogue & digital two-way radio transceivers
- Two PTT switches, one located on each ear cup, for easy accessibility
- Padded headband and soft ear cushions give high comfort
- Comfortable to wear, easy to use, and fully fit for purpose.
- Easy positioning fully flexible and robust boom microphone gives a high perception of speech, by filtering out unwanted background noise

Quote from a high profile motor racing track marshal:

"In my opinion and 50 years experience, this SWATCOM SC40 headset truly achieves the perfect balance of hearing defence & external noise awareness, a compromise perfectly executed. Wearing & using this new headset was simply perfect I could easily hear everything on Circuit whilst retaining complete spacial awareness of sound beyond the Circuit, = a perfect balance."
