## SC11-HA High Attenuating Passive Hearing Protector

High attenuating helmet mounting passive hearing protection. Featuring an easy Clip-On adapter system, which enables attachment to most helmets on the market. Ability to set in working and rest position. Durable and comfortable design. The combination of light weight, even tension and soft ear cushions make it comfortable to wear over longer periods of time.

Fits to most safety helmets.

### Key features:

- SNR 33 dB
- ABS plastic Cups
- Weight net 249 gms
- Universal visor attachment
- Easy Clip-On helmet adapter system
